THIRTY PAGES

COTTON ACREAGE REPORTS.

The recent cotton crop report issued by The Post indicated that there had been little, if any, decrease in the acreage.

Indian Territory was placed at 19.7 per ciety. cent. Some little credence might have been given this report had not the firm for comment, and incidentally for amuseannounced that "in Texas 75 per cent of ment. Says the C .- A .: the reports complained of the increasing He was listened to in sullen patience by the audience, but his speech fell like a blanket much for even the most ardent bull to

that the acreage is the chief element to be considered in guessing at the size of a prospective crop has also been abandoned. It is now realized that weather conditions make the yield. These conditions no man can foresee, nor can gay a series what he wants!

Another feature of this comment by the considered in guessing at the size of a prospective crop has also been abandoned. Was promptly copied by the Washington Post another journal that hates Mr. Bailey as the devil hates holy water. Those who can foresee, nor can any crop statistician until the summer months have ended. Even then he may miss the yield a million bales or more, as the autumn weather frequently changes everything.

TRIFLING WITH THE PUBLIC.

There can hardly be a question that the republican party, in view of the growing hostility among the masses of this counand effrontery to put an anti-trust plank

Depew of New York, after remarking that seek this port." would oppose the trusts and favor "expansion." As for "expansion," as the Galveston Tribune says, it can not be made to mean other than imperialism; the purchase of a people; the denial of the right

The anti-trust plank would need no the money. further to be discredited when Mark Possibly the volunteers in the Philippines means for his fight from sources well manner. known to the public and would not be It appears that the strong arm of the govto his aid in 1900 will lose nothing if he again succeeds in prostituting the country by purchasing or buildozing his candi-

date's way into power. If anything else were needed, however, to discredit a republican anti-trust plante he the record of trust promotion and ex- tience ceases to be a virtue at times. pansion during the first term of Mr. Me-Kinley. They have multiplied like files

tatule book have been declared by the atterney general to be incapable of enercement, notwithstanding the fact that la previous cases the supreme court of he United States has upheld the antirust law!

The republicans will be able to deceive so intelligent people in the United States by platform declarations. They will be tried at the bar of public opinion on their record and if the masses only properly stimate the dangerous tendencies and acwill receive one of the severest rebukes ever administered in its history! It would be an insuit to the public's intelligence to National platform!

AN EXAMPLE IN MENDACITY.

The Memphis Commercial-Appeal is leading Southern dally and popularly trusted as a relfable newspaper. We should not vezetables to market. That's the kind of o ordinarily took for a willful or prejudiced perversion of facts in its columns. But that when we put our trust too unfaiteringly in even great editors like Colonel Mique Connolly they are liable to throw us down!

He would every acre of farm land in this country. The only way to stop raping!"

The reversor has received accross of letters warmly commending his interview in relation to the Hose matter. All the letters justify his position. The tenor at the source and he would not be compelled to these letters is that the governor was correct in the satement that the negicos who put up the building and furnished the ash justice who committed rape one reason of the recurrence of this horrible class on his investment. He would have no being that the negroes make not the alignment of the recurrence of this horrible class on his investment. He would have no his investment. He would have no his investment. He would have no apprehend the perpetrators.

The land owning farmer of today who complaints of low prices and hard filmes has good grounds for so doing, but after all said and done, with a homestead that is asked and done, with a homestead that can not be taken from bim, he is in a position to dig from the ground a comfort decide his less fortunate brothers in the slightest effort either to prevent it or to apprehend the perpetrators.

The land owning farmer of today who complaints of low of low

proper treatment.

in mind for many years, and when Bratton of the marine hospital corn relieve them from the heavy burdens from which they were compelled to suffer. a careful examination of all the government property there which there was chance of securing for a sanitarium. Bration was also to report upon the b

at of the climate to consumptives.

The report which he filed was The report which he filed was exhibitive and ever since Dr. Wyman has be agitating the project of having the gover-ment reservation turned over to his b partment. Fort Stanton will be used 0. tives in the marine service, and there no present intention of sending there to partment clerks or other employes of the content of the conte government. Should the experiment prosuccessful, and there is no room to dot that it will, the army may decide also establish a sanitarium to which the the sumptives in that branch of the serve may be sent. For the present, however,

the experiment will be confined to the rine hospital service. Recurring to the question of the tagiousness of consumption, it is worth explaining that this very feature of the disease was one of the most important ty, and for a time practiced law reasons why Dr. Wyman has been He removed to Texas fifteen years strous of securing a sanitarium where

> will go to work to establish the sanita-rium without delay. Dr. J. O. Cobb already throughout the country. There are thirty eight stone and adobe buildings, and what properly fitted up they will accommodate eight stone and adobe buildings, at properly fitted up they will account

> 500 patients. Dr. Wyman says that pulmonary tuberculosis is a contagious disease and the is lation of those suffering from it is, therefore, of advantage to those who are not se afflicted, as well as to those who are. The this view is held by others is evidenced by the fact that there has been pending before the New York legislature a propo-sition to establish a State sanitarium for consumptives in the Adirondacks. A saltarium for consumptives has been established just outside of Chistablished just outside of Chi-cago, and a similar institution es ablished just outside of Philadelphia. It established countries, the isolation of consumptives in all European now being advocated and sanitariums established for that provides the consumptives and the consumptives are the consumptives and consumptives are the consumptives and consumptives are consumptive to the consumptive consumptive consumption of the consumptive consumptive consumption of the consumpti
